## BACKACHE.

A very significant indication of organic derangement.

The back, "the mainspring of man's organism," quickly calls attention to trouble by aching. It tells with other symptoms, such as nervousness, headache, pains in loins, and weight in lower part of body, blues and "all gone" feeling, that nature requires assistance, and at once.

Lydia E. Pinkham's Vegetable Compound for twenty years has been the one and only effective remedy in such cases. It speedily removes the cause and effectually restores the organs to a healthy and normal condition.

Mrs. Pinkham cheerfully answers all letters from ailing women who require advice, without charge. Thousands of cases like this are recorded.

"I have taken one-half dozen bottles of Lydia E. Pinkham's Vegetable Compound, and it has relieved me from all pain. I cannot tell you the agony I endured for years, pains in my back (Oh, the backache was dreadful!) and bearing-down pains in the abdomen extending down into my limbs; headache and nausea, and very painful menstruation. I had grown very thin, a mere shadow of my former self. Now I am without a single pain and am gaining in flesh rapidly." MATTIE GLENN, 1561 Dudley St., Cincinnati.

Entered at the Seymour, Indiana, Post Office as second-class matter.

SINCE New York has become Greater New York, Chicago is planning to follow the example and become a Greater Chicago.

The house committee on building and loan legislation met last evening to make a thorough examination of the bill prepared by the commission appointed by Governor Matthews. It is probable that some modifications will be made and the bill introduced as a committee measure.

The appointment of Elder Z. T. Sweeney, of Columbus, as fish commissioner is especially gratifying to the people of Seymour. He has many warm friends here who know him for his good qualities as a fisherman as well as a preacher and lecturer, and who appreciate his worth.

The legislature promises to make a good record. Through its committees it is working hard on important measures getting them in shape for action. The fact that it has not passed many bills as yet does not argue against it, for oftentimes the best service is rendered in defeating measure which would do no good.

The selection of Lyman J. Gage for Secretary of the treasury will give general satisfaction to the business interests of the country. What this department needs is a conservative and careful business man, rather than a politician. And Mr. Gage's long business experience fits him well for the heavy responsibilities of this new position.

The subject of sanitary legislation is receiving some attention by the general assembly. The best features of the health bills of several other states are included in some of the bills for the protection of game fish, birds, live stock and it requires no argument to show that the prevention of disease among men and women is of far greater importance. Our vital statistics are not perfect in Indiana, but they show every year thousands of deaths which might have been prevented by proper sanitary arrangements. Typhoid fever claims 2,000, scarlet fever nearly 1,000, and so on through the list. The proper enforcement of good health laws would materially reduce this death rate. In Massachusetts the death rate from typhoid fever has been reduced fifty per cent by enforcing sanitary measures, and there is no reason why the same thing should not be true in Indiana. The subject deserves very careful consideration by the legislature.

Cascarets stimulate liver, kidneys, and bowels. Never sicken, weaken or grippe.

## SOUND ARGUMENT.

The Ladies' Home Journal for February.

President Fisher, of Hanover College, sees clearly the unjust provisions of the general educational bill and does not hesitate to point them out. In speaking of the life license granted to graduates of the State Normal he says:

"If a person takes the much shorter course which the Normal requires and then teaches two years and brings good testimonials, he gets a life license. But the college man must spend about six long years in preparation for college and in completing its broad and solid course. Then he gets a school and teaches for two years, and brings as good testimonials as the normal graduate or better, but he cannot thereby have a life license. Why? Not because he is not a capable teacher. Not because he has not ample testimonials. No. The only reason is because he did not graduate at the normal. If this is not a premium on the short cut what could be such?"

Relative to the state board of education to which the proposed law would give increased and unwarranted authority, he has something to say. He

believes that the board itself should be reconstituted by law so as to exclude

the presidents of all the state educational institutions, and put in their places public school men of ability and worth. For as the board now is the three presidents of the state institutions dominate it and control legislation. In order to get what they want from the legislature they must give themselves every advantage possible to show need of large appropriations. These things being true members of the legislature should consider every proposition presented by these men who are urging the passage of the educational bill. There is a very strong suspicion that they have selfish interests they want taken care of.

## South Before the War.

Manager Cox has secured Harry Martell's gigantic and successful southern production, "The South Before the War," for Saturday Jan. 30th.

The entertainment is a most novel one, and is pronounced the best picture of Southern darkey life ever attempted. This play introduces a number of scenes that are lifelike, beginning with representation of the cotton field in full bloom. During this scene famous old time melodies that made the negro and the plantation never to be forgotten memories, are heard. A Pickaninny band of seventeen little band of seven little darkies is introduced in several scenes of the production. There are also several well-known white artists of minstrel fame, who play the leading parts.

## YOUNG MERCHANT'S CRIME.

Shoots His Sweetheart and Then Kills Himself.

DUNDEE, Ind., Jan. 29.—Joseph Boxell, a merchant at this place, shot Ora Brotherton, daughter of the oldest merchant here, in the temple, the bullet passing out at the back of her head. Then he shot himself in the head, dying instantly. Boxell was 25 years old and his victim 16. He was for a long time employed in the store of Miss Brotherton's father. He fell in love with the girl and his love was reciprocated. Her parents, however, objected, and Boxell was discharged from the store. Then he started a store of his own. Miss Brotherton is still alive and physicians say she has a good chance of recovering.

My daughter, when recovering from an attack of fever, was a great sufferer from pain in the back and hips," writes Loudon Grover, of Sardis, Ky. "After using quite a number of remedies without any benefit she tried one bottle of Chamberlain's Pain Balm, and it has given entire relief." Chamberlain's Pain Balm is also a certain cure for rheumatism. Sold only by C. W. Miller, the druggist.

Mothers whose children are troubled with bad colds, croup or whooping-cough will do well to read what Dr. R. E. Robey, of Olney, Mo., says on this subject. He writes: "For years we have used Chamberlain's Cough Remedy, an always keep it in the house. It is regarded in our family as a specific for all kinds of colds and coughs. The engine, baggage car and mail car of No. 2 jumped the track at Milan last evening by a broken rail. The wrecking crew got them on their pins in seven hours.

Local Agent Rodney, of the Vandalia, stated yesterday that the road brought into Indianapolis on Wednesday two full trains of block coal from Brazil. It is the first time such a thing has occurred since natural gas was introduced at Indianapolis seven years ago.

A new scheme is on foot to build a new railroad from Cincinnati to Chicago. The B. & O. S. W. track will be used to North Bend, where the new road bed will begin and pass through Richmond and Muncie, and thence northwest to a point, on some of the trunk lines entering Chicago. It is claimed the distance would be 236 miles which is the shortest route. A Louisville capitalist is back of the project.—Versailles Republican.

Brakeman Howard Lyons, of the B. & O. S. W. Louisville branch, was knocked off his train this week at Nabb's and he is seriously injured. He fails to know anyone who calls to see him except his former conductor, J. W. Cole, of this city, who visited him yesterday. Lyons can't realize that he is

QUASHED.

INTERESTING POINTS SPRUNG IN THE CASE AGAINST JOSEPHUS GOSS.

On election day Josephus Goss, one of the prominent citizens of Owen township, had in his possession as ample ballot and a sample stamp for the purpose of instruction. At the first meeting of the grand jury after that some political enemy went before that body and caused him to be indicted and charged under section 50 of the election law, with having a "counterfeit" stamp in his possession. The charge against Mr. Goss attracted a great deal of attention and the result was looked for with much interest.

At the beginning of the present term of court Hon. O. H. Montgomery, attorney for defendant, made a motion to quash the indictment, which motion was sustained yesterday by Judge Voyle and Mr. Goss discharged.

One point raised by Mr. Montgomery on the motion to quash is of general interest at this time. He contended that all crimes in this state must be defined by statute. That there is no statute defining or describing the official or genuine election stamp, but that Section 29 of the election law leaves it discretionary with the state board of election commissioners to provide election stamps with "such device as they may select." He argued that this device may be changed at each election, therefore the citizens of the state can not know what the official stamp is to be and consequently what may be a counterfeit; that it is possible under the same statute for an act to be a crime at one election which would not be at the next; that the legislature can not delegate to the state board of election commissioners the right to add to or take from criminal statutes, and that Section 50 of the election law is therefore invalid and void in so far as it attempts to make it a felony to have in possession a "counterfeit" election stamp.

All the attorneys present were much interested in this theory as presented by Mr. Montgomery.

## DO LITTLE BUT TALK

Senators Spend the Day in Debating Various Measures.

## INDIAN APPROPRIATION BILL

Grosvenor Replies to Altgeld on Frauds in the Late Elections and Mr. De Armond Ridicules Secretary Morton in a Speech—Venezuelan Treaty Nearly Completed—New Revenue Cutters.

WASHINGTON, Jan. 29.—The open session of the senate was comparatively brief yesterday, as more than half the day was spent behind closed doors. During the open session the bill for an international monetary conference was debated, Mr. Chandler speaking in favor of it, and Mr. Stewart of Nevada against. Mr. Chandler's speech was carefully prepared and was in the nature of a statement of the attitude of the Republican side of the chamber on the bill. Mr. Stewart, although criticizing the commission as futile, stated that he would not oppose the measure. It is expected that a vote will be reached today, although Mr. Pettigrew of South Dakota announced a speech, which may lead to further delay.

The Nicaragua canal bill and the bankruptcy bill were before the senate for a brief time, but no progress was made on either of them.

Early in the day a lively debate occurred over Mr. Allen's resolution questioning the president's right to foreclose against the Pacific railroads. The resolution went over for a speech by Mr. Thurston of Nebraska today.

In the House.

WASHINGTON, Jan. 29.—The house passed the Indian appropriation bill yesterday and entered upon the consideration of the agricultural appropriation bill, but all interest in these two measures was overshadowed by two very remarkable speeches, one made by Mr. Grosvenor of Ohio, attacking ex-Governor Altgeld of Illinois, on his speech on frauds in the late election, and the other by Mr. De Armond of Missouri, heapings ridicule on Secretary Morton for the recent issue of a pamphlet entitled: "The Farmers' Interest in Finance."

PRESIDENT RECEIVES.

Annual Reception to the Judiciary, Senators and Representatives.

WASHINGTON, Jan. 29.—President and Mrs. Cleveland gave their annual reception to the judiciary and to the senators and representatives in congress last night. Owing to the very cold weather the attendance was the smallest which has occurred for many years.

Consequently there was freedom from the crush and push that so often characterizes such affairs. An unusual incident was the arrival of some of the guests in sleighs, a rare event in the history of presidential receptions.

The scene within the mansion was a brilliant one and there were many elaborate toilets. The decorations of the east room and the state parlors were such as often characterize these affairs. At 9 o'clock the president and Mrs. Cleveland and the members of the cabinet and their ladies, who assisted in receiving, met in the blue parlors, where they received the guests, the introductions being made by Captain Wilson and Lieutenant Gilmore of the army. The music for the occasion was rendered by the Marine band under the direction of Professor Fancuilli.

## BACKACHE.

Very Significant Indication of Organic Derangement.

The back, "the mainspring of man's organism," quickly calls attention to trouble by aching. It tells with other symptoms, such as nervousness, headache, pains in loins, and weight in lower part of body, blues and "all gone" feeling, that nature requires assistance, and at once.

Lydia E. Pinkham's Vegetable Compound for twenty years has been the one and only effective remedy in such cases. It speedily removes the cause and effectually restores the organs to a healthy and normal condition. Mrs. Pinkham cheerfully answers all letters from ailing women who require advice, without charge. Thousands of cases like this are recorded.

"I have taken one-half dozen bottles of Lydia E. Pinkham's Vegetable Compound, and it has relieved me from all pain. I cannot tell you the agony I endured for years, pains in my back (Oh, the backache was dreadful!) and bearing-down pains in the abdomen extending down into my limbs; headache and nausea, and very painful menstruation. I had grown very thin, a mere shadow of my former self. Now I am without a single pain and am gaining in flesh rapidly." —MATTIE GLENN, 1561 Dudley St., Cincinnati.

SINCE New York has become Greater New York, Chicago is planning to follow the example and become a Greater Chicago.

The house committee on building and loan legislation met last evening to make a thorough examination of the bill prepared by the commission appointed by Governor Matthews. It is probable that some modifications will be made and the bill introduced as a committee measure.

The appointment of Elder Z. T. Sweeney, of Columbus, as fish commissioner is especially gratifying to the people of Seymour. He has many warm friends here who know him for his good qualities as a fisherman as well as a preacher and lecturer, and who appreciate his worth.

The legislature promises to make a good record. Through its committees it is working hard on important measures getting them in shape for action. The fact that it has not passed many bills as yet does not argue against it, for oft times the best service is rendered in defeating measure which would do no good.

The selection of Lyman J. Gage for Secretary of the treasury will give general satisfaction to the business interests of the country. What this department needs is a conservative and careful business man, rather than a politician. And Mr. Gage's long business experience fits him well for the heavy responsibilities of this new position.

The subject of sanitary legislation is receiving some attention by the general assembly. The best features of the health bills of several other states are included in some of the bills for the protection of game fish, birds, live stock and it requires no argument to show that the prevention of disease among men and women is of far greater importance. Our vital statistics are not perfect in Indiana, but they show every year thousands of deaths which might have been prevented by proper sanitary arrangements. Typhoid fever claims 2,000, scarlet fever nearly 1,000, and so on through the list. The proper enforcement of good health laws would materially reduce this death rate. In Massachusetts the death rate from typhoid fever has been reduced fifty per cent by enforcing sanitary measures, and there is no reason why the same thing should not be true in Indiana. The subject deserves very careful consideration by the legislature.

Cascarets stimulate liver, kidneys, and bowels. Never sicken, weaken or gripe! Cascarets are the best.

## SOUND ARGUMENT.

President Fisher, of Hanover College, sees clearly the unjust provisions of the general educational bill and does not hesitate to point them out. In speaking of the life license granted to graduates of the State Normal he says:

"If a person takes the much shorter course which the Normal requires and then teaches two years and brings good testimonials, he gets a life license. But the college man must spend about six long years in preparation for college and in completing its broad and solid course. Then he gets a school and teaches for two years, and brings as good testimonials as the normal graduate or better, but he cannot thereby have a life license. Why? Not because he is not a capable teacher. Not because he has not ample testimonials. No. The only reason is because he did not graduate at the normal. If this is not a premium on the short cut what could be such?"

Relative to the state board of education to which the proposed law would give increased and unwarranted authority, he has something to say. He believes that the board itself should be reconstituted by law so as to exclude the presidents of all the state educational institutions, and put in their places public school men of ability and worth. For as the board now is the three presidents of the state institutions dominate it and control legislation. In order to get what they want from the legislature they must give themselves every advantage possible to show need of large appropriations. These things being true members of the legislature should consider every proposition presented by these men who are urging the passage of the educational bill. There is a very strong suspicion that they have selfish interests they want taken care of.

## Should Trade at Home.

Several Jeffersonville ministers have been swindled by a stranger who went to them, and appealing to their sympathy sold them cloth for a suit of clothes, exhibiting a sample of the goods. The money was paid and when the goods were delivered it was found that the quality was of the cheapest, and that no more than half the promised quantity was delivered. It is understood that the swindler left on the B. & O. S. W. and it is probable that he will come to this city. The ministers should beware of any such stranger.—Charlestown Hustler.

## South Before the War.

Manager Cox has secured Harry Martell's gigantic and successul southern production, "The South Before the War," for Saturday Jan. 30th.

The entertainment is a most novel one, and is pronounced the best picture of Southern darkey life ever attempted. This play introduces a number of scenes that are lifelike, beginning with a representation of the cotton field in full bloom. During this scene famous old time melodies that made the negro and the plantation never to be forgotten memories, are heard. A Pickaninny band of seventeen little band of seventeen little darkies is introduced in several scenes of the production. There are also several well-known white artists of minstrel fame, who play the leading parts.

## YOUNG MERCHANTS' CRIME.

Henry Heitfield populist was elected to the United States senate yesterday by the legislature of Idaho. It is now definitely settled that Lyman J. Gage will be the next secretary of the treasury. This second selection made by Major McKinley the other being John Sherman for secretary of state.

Señor Shively's cigarette bill passed the senate yesterday. It provides that it shall be unlawful for any person, firm or corporation to sell or give away cigarettes or cigarette wrappers without first obtaining a license from the county commissioners. The license fees are fixed at \$50 for wholesale dealers and \$400 for retailers. Another section provides that cities and towns may also require retail dealers to pay a license fee of not to exceed \$200 and wholesale license not to exceed \$50. It also makes it unlawful for dealers to sell or give away cigarette wrappers to any person less than eighteen years of age. A penalty of a fine not less than \$10 nor more than \$500 may be inflicted for the violations of the bill. Any person under eighteen years of age convicted of having cigarettes or wrappers in his possession is punishable by a fine of not more than \$10.

Shively's Cigarette Bill Passed by the Senate.

## CULBERT SECURES HIS SEAT.

Bills for the Establishment of a Superior Court in Grant County and Making Separate Circuits of Howard and Tipton Counties Passed—Rev. Z. T. Sweeney Appointed Fish Commissioner.

INDIANAPOLIS, Jan. 29.—The features of the work of the legislature Thursday were the passage of the Shively cigarette bill by the senate, the passage of the Roots' bill by the house providing for a method of getting at reliable data upon the needs of state institutions and the disposition shown by the house to pass, without amendment, another bill by Mr. Roots limiting the authority of township trustees in spending money and involving their townships in debt. In the Culbert-Rogers contest there was much oratory of a political character. The election committee reported in favor of ousting George W. Rogers and seating Uriah Culbert, with a minority report from the Democrats throwing out the contest. Speeches of some length were made in behalf of the Democratic incumbent by Senators Drummond, Sweeney, Shea and Ellison. Senators Wood and Newby spoke upon the Republican side and Culbert was seated by a party vote of 30 to 15. House bills for the establishment of a superior court in Grant county and making separate circuits of Howard and Tipton counties, Senator Wood's bill prohibiting railroads from charging anything more for a cash fare than for a ticket and a bill legalizing the incorporation of Roanna were also passed by the senate.

## FISH COMMISSIONER.

Rev. Z. T. Sweeney of Columbus Is Appointed by the Governor.

INDIANAPOLIS, Jan. 29.—Governor Thurman appointed Rev. Z. T. Sweeney of Columbus state fish commissioner. Mr. Sweeney is pastor of the Christian church at Columbus, and was recommended for the place by the Rod and Reel Club of Indiana, camping associations operating picnic resorts in the northern Indiana lake regions and by railroad officials interested in fishing resorts. Mr. Sweeney is said to have been active in seeking evidence against the users of dynamite in the various streams. His friends claim that he will supplement the salary of the office (\$300) by more than an equal amount out of his own purse in enforcing the fish laws. Mr. Sweeney was United States consul general to Turkey for two years under President Harrison's administration.

## Railroad Legislation.

INDIANAPOLIS, Jan. 29.—The house committee on railroads has several bills before it affecting railroads and on the next call of committees, it is said, will have some reports to offer. The 2-cent fare bill, it is intimated, will be reported unfavorably, but the bill to require the putting in of interlocking switches and the one authorizing the incorporation of railroads a mile or more in length will be reported favorably.

## House Passes the Convict Bill.

INDIANAPOLIS, Jan. 29.—The house Thursday passed the bill regulating the discharge of convicts. It provides that discharged prisoners shall be given \$10 in money, a suit of clothes costing \$6 and an overcoat costing \$5, and shall be placed upon the train with a ticket to such destination within the prison district as he may choose, by the warden, and there given his discharge.

## Sections of the Tax Law Repealed.

INDIANAPOLIS, Jan. 29.—Mr. East's bill repealing certain sections of the tax law was passed by the house Thursday. It throws the conduct of tax sales back upon the county treasurer. Mr. East explained that the sections repealed gave opportunity to people to get possession of lands sold for taxes by simply paying the cost of the suit.

## GENERAL STATE NEWS.

### Coal Shaft Burned.

CLINTON, Ind., Jan. 29.—The engine house at shaft No. 1 of the new Kentucky Coal company, just across the river, was destroyed by fire. The flames were well under headway when discovered and it was only by the most desperate effort that the large dump was saved, as the cage and the hoisting drum and ropes at the mouth of the shaft were burned. The loss is estimated at about \$2,000, and it will be about two weeks before repairs can be made necessary to resume work. It is believed the fire was the work of an incendiary.

### Sick Man Finally Burned.

KOKOMO, Ind., Jan. 29.—The farm residence of Henry Hemper, near here, burned last night, and Mr. Hemper, who was confined to his bed, was fatally burned. The sick man was carried out of the burning building by his two daughters. The burns and exposure will cause speedy death. Hemper is 70 years old. The house and contents were entirely destroyed.

## Heart Disease Cured.

WEN a well known minister after suffering for years with heart disease, is cured, it is not surprising

that he should publish the fact for the benefit of others. Rev. J. P. Smith, 1045 Fulton St., Baltimore, Md., writes: "For years I suffered from a severe form of heart disease. I used Dr. Miles' New Heart Cure, and my heart is now in good condition.

Recently, other afflictions came upon me. There was humming, painful sensations on top and back of my head. Fifteen minutes reading would make me almost wild; there were pulling and drawing sensations in my legs all the time, so that I could not sit still. In this condition I began taking Dr. Miles' Restorative

Nervine and its effect was simply wonderful. I heartily commend your remedies."

## THE MAJOR'S ROMANCE.

It Turned on Sixteen to One, but Was Not Political.

Major Culper is not his name, but that will suffice for the little romance involved.

He is a courtly old beau of Virginia breeding, and he is also a courtly old bachelor, quite old enough to know better, and he does know better, but with him knowledge is not power, and he is absolutely lacking in strength to keep out of the clutches of Cupid.

The last fair charmer was an unusually pretty Washington girl of the sweet sixteen type, and the major felt for a time that he was a sure winner, but he was badly left at the wire.

Some time after the sad event and when the major, whose recuperative powers are famous, was convalescent he was talking with a friend—Star reporter—on the subject of ladies and society and that sort of thing.

"By the way," said the friend, "you don't go out as much as you did?"

"Well, now," responded the major, attempting to dodge the issue, "you see I've retired, so to speak."

"Given up society entirely?"

"No, not exactly, but heading that way."

"But there was one place that caught you quite frequently. What has become of that?"

The major smiled reminiscently and began to recover his spirits.

"Oh!" he laughed. "She was a pretty girl, wasn't she? You know, I liked that girl."

"So I heard. Why did you give her up?"

"We differed on the 16 to 1 question."

"Great Scott, major!" exclaimed the friend. "You don't mean to say you let a political issue interfere with a love affair?"

"Well, no; not exactly," hesitated the major. "You see, she was 16, and I was one who was old enough to have known I hadn't a ghost of a show."

"And now?" queried the friend.

The major drove himself up proudly, almost youthfully.

"Thank heaven," he smiled, "I wasn't too old to learn."—Washington Star.

#### A WOMAN'S COURAGE.

She Killed a Cobra, Saved Her Husband and Then Fainted.

"Women," remarked a rather patronizing young man, "possess a certain courage of endurance, but when it comes to the facing of an alarming danger they weaken and succumb to nerves."

"I hate to be personal," said a woman, "but I once faced what you will admit was an alarming danger. My husband, who was stationed in India, was stricken down by fever. On the day the crisis was expected the doctor said that his life hung on a thread, but there was still a chance of recovery if he should fall into a natural sleep which remained unbroken for a certain length of time.

"After hours of tossing and moaning had the joy of seeing him pass into slumber, which grew more natural as I sat, almost holding my breath, across the room. When hope was becoming joyful assurance, through the long widow a large hooded cobra glided into the room and made straight for the bed, raising its head and softly hissing.

"For one horrible instant I was paralyzed, while the snake reared and cowered about to insinuate itself among the pillows. But it dropped and coiled itself on the floor beside the bed. The power of motion returned to me, and I crept across the room, raised my foot and ground my heel into the flattened head with its coldly glittering eyes. The creature writhed furiously, coiled. I itself around my ankle like a vice, but I held my ground till the folds relaxed and I knew the snake was dead. The doctor found me on the floor in a dead faint when he called. My husband recovered rapidly, and treasured as his greatest possession a worn kid slipper."

#### Why Spitz Quit.

Germany has been on the verge of a violent crisis for several weeks. The first warning of the trouble among the highest officials of the empire was given by the fall of General Von Spitz. Nobody has explained just why Spitz fell, but in an article that attempts to do so the Cologne Gazette suggests reasons that probably will seem more than sufficient to you outside Germany. The Gazette says that it was incumbent upon him in his department to attend to the Strafvollstreckung (sangeleghenheit), the Militaergerufungsweisen and the whole Militaerjustizwesen. Besides, his office required that he take charge of all the bills regarding the Militaerprozessordnung and consult with the chancellor as to the supreme Reichsmilitaergerichtsinstanz and the supreme Reichsmilitaergerichtshof. Is it any wonder, then, that when he foresaw the failure of the Militaerprozessordnung he fled, moved by Gesundheitsrucksichten to quit?
